

Slingshot

- For thousands of years mankind has remained baffled by unanswered questions that will probably never be explained in our lifetime.
 - How did life originate? Who or what made humans?
 - Where did the world come from?
 - What happens to us after we die? Is there life after death?

Should we keep searching for answers to our human questions?
What do you think?
- How do you describe the God of the bible? What words or phrases come to your mind?
